Abstract

These instructions are intended to guide prospective authors of the **MM Science Journal** when preparing their **paper manuscript** for the intended **paper**. The following requirements should be adhered to as closely as possible. Use this document please as an example and template. You can download the **Paper Manuscript Instructions** from the **MM Science Journal** web portal: <http://www.mmscience.eu>. The **abstract** should have **from 100 up to 150 words**.

Keywords: *from 5 to 7 characteristic words (and/or groups of words, separated with commas). Select keywords that can be used to identify the subject of your paper.*

1. Introduction

Paper manuscripts are accepted only **in English**. **Length** of the **paper manuscript** should be **from 5 to 10 pages incl. graphic objects** (ca 80 characters per line and ca 60 lines per page). We suggest to use font **size 9 normal**, for titles font **size 12 bold**. We do not strictly insist on font type, because all papers are graphically designed before publishing.

2. Chapter

Preferably use DIN A4 page format and MS Word editor, please.

Some more suggestions to style of your paper:

- do not use underlining in your paper
- use bold for emphasis, but keep its use to a minimum
- use a consistent spelling style throughout the paper (US or UK)
- use single quotes
- use %, not percent
- do not use ampersands (&) except as part of the official name of an organization or company
- keep hyphenation to a minimum. Do not hyphenate 'coordinate' or 'non' words, such as 'nonlinear'
- do not end headings with full stops.
- use one character space after all punctuation

2.1 Subchapter

Number the subchapter consecutively, i.e. the subsections of section 2 are numbered 2.1, 2.2, 2.3 etc. We recommend using no more than three levels of headings.

2.1.1 Figures and tables

Figures and Tables must be inserted in the text (not as attachment), cited in the text, and should be consecutively numbered i.e. Figure 1, 2, 3, etc., and Table 1, 2, 3, etc. with the captions as follows:

Table 1. Table caption

[FIGURE or TABLE]

Figure 1. Figure caption

When cited, please use shortcut e.g. Fig. 1, 2, 3 or Tab. 1, 2, 3 etc.

Do not wrap the text around the Figures, place the caption below the Figure, or above the Table.

Photographs must be clear, of perfect technical quality. Figures and Tables will be published in colour.

2.1.2 Equations

Equations should be numbered in the right margin.

$$x^2y^2 + Ax_2 - 2Bxy = 0 \quad (1)$$

3. Chapter

Authors must adhere to SI units. When using a word which is or is asserted to be a proprietary term or trade mark, authors must use the symbol ® or TM.

4. Chapter

Please send your paper manuscript by e-mail to: paper@mmscience.eu. The **file name** of your **paper manuscript** should be:

[Yourname_MM-SJ_PaperManuscript_yyyy-mm-dd.doc.](#)

5. Conclusions

Authors of accepted papers will be required to transfer copyrights to the publisher. You can download the **Transfer of Copyrights Form** including the related information from the **MM Science Journal** web portal: <http://www.mmscience.eu> .

Acknowledgements

Acknowledgements (if any) should be placed after the Conclusions and before the References.

References

References are to be marked in the text by giving the name of the first author and the publishing year in square brackets, e.g. [Anderson 2001]. Only those publications actually cited in the paper can be included in the list of references. Please follow the format for

references as follows (if more than two authors, give the surname of the first author followed by *et al.*):
